

Nutritional Wellness for Organizations

Mealime supports healthy eating across your organization

Mealime partners with employers deliver a healthy eating program that help employees eat well without the hassle.

Employees using Mealime will:

Eat well

Mealime combines dietician developed recipes with cutting edge technology to make eating well easy for anyone.

Feel better

Mealime is more than just a diet app. It's a way for employees to connect over food, reduce their food waste and get the nutrition they need to feel their best.

Be supported

Mealime provides community and professional support to help your employees achieve their goals.

Mealime is proven to work

Mealime is the world's most popular meal planning app, with 5 million downloads, and a 4.8/5 star rating on the App Store.

The only sustainable success I've had with cooking

The recipes are not overly simple nor overly complicated, and everything is solidly healthy. As someone who struggles with laziness and a fast food addiction, I've never felt like I could sustain a cooking habit. This app is the first thing to ever change that and remove the barrier I've always faced when wanting to cook. It's an immensely relieving and satisfying feeling.

Cody – Mealime user

Why employees love Mealime.

Choices for everyone

Whether it's diet, preferences, allergies, or underlying health conditions - Mealime makes eating healthy easy for everyone.

It saves time

From grocery shopping to cooking, Mealime makes the entire process of eating, healthy home cooking meals faster than ever.

It saves money

Mealime's recipes and algorithms work in tandem to efficiently create meal plans that reduce food waste and keep grocery bills low.

Why partner with Mealime?

Worldwide coverage

Mealime is available in 36 countries and is integrated with most major grocery retailers across North America, the UK and Australia.

Robust Analytics

We provide detailed reporting on employee engagement that helps you understand engagement and food waste reduction across your organization.

Dedicated customer success team

Our team will work with you to increase employee adoption and achieve your organization's wellness goals.

Effortless rollout

Seamless employee onboarding and robust marketing materials make rollouts a breeze.
